

## REQUEST FOR SPONSORS!

Interior Design Day 2023 is officially on the schedule for Tuesday November 14th! IDLCPA is inviting design professionals, industry members and students from across the state to meet PA Senators and House of Representatives and discuss why licensing is so important for the ENTIRE profession!

We are asking for your financial support so that we can fund the students and professional designers who are participating at the exhibit in Harrisburg. Your support will make possible the personal effort needed to interact with key representatives and senators for the entire day, making a profound impact beyond that of a phone call or email.
